

Committee on Collegiate Athletic Activities

Baruch's sports teams have had an outstanding year so far, one of the most successful in the past 7 or 8 years. Several teams have improved their on-the-field performance tremendously. The soccer team, which only won three games last season, completed a "worst to first" scenario, in which they not only won the CUNYAC Championship, but also automatically qualified for the Division III NCAA Championships. The extremely competitive women's volleyball team made it all the way to the CUNYAC Championship finals before losing to CCNY. Both the men's and women's basketball teams had solid seasons, with the women making the CUNY semi-finals and winning a total of 21 games, the most in their history. The men's and women's swim teams were also very successful, finishing 3rd and 2nd respectively in the CUNYAC Championships. The Men's Volleyball team finished at 12-8 (12-2 in CUNY) and are in the semi-finals of the CUNYAC.

All the teams have seen record numbers of participants and the recruiting of new athletes continues to improve each year. Over 36 student-athletes were designated as CUNY scholar-athletes. An impressive number of Bearcats also won All-star, All-CUNY and All-Region recognition. The support of President Waldron, the administration, faculty, staff, students and community has given a great lift to Baruch athletics. We anticipate future growth and development in the program and look to stay at the "top of the heap" of CUNYAC.
